- **Neutral Territory:** When introducing guinea pigs, do so on neutral territory, such as a carrier or outdoor space, to minimize territorial

disputes.

- **Allow Ample Time:** Be patient and give your guinea pigs ample time to adjust to each other. It may take several s before they become comfortable living together.

## **Beginner Training: Basic Commands and Tricks**

- **Target Training:** Use a stick or your finger as a target and reward your guinea pig with a treat when they touch it with their nose.
- **Come When Called:** Say your guinea pig's name and use a hand gesture or whistle to call them. Reward them when they come to you.
- **Spin:** Hold a treat in front of your guinea pig's nose and slowly move it in a circle. Reward them when they spin around to follow the treat.
- **Jump:** Place a small hurdle or cardboard box in front of your guinea pig. Reward them when they jump over it successfully.

## **Advanced Training: Obstacle Courses and Agility**

Once your guinea pig masters the basics, you can challenge them with more advanced tasks like obstacle courses and agility training. These activities not only provide mental stimulation but also strengthen your bond.

- **Obstacle Course:** Design an obstacle course using tunnels, ramps, and hurdles. Guide your guinea pig through the course and reward them at each obstacle they complete.
